CASTORIA

for Infants and Children.

Physicians Prescribe Castoria. CASTORIA has met with pronounced favor on the part of physicians,

pharmaceutical societies and medical authorities. It is used by physicians Kischler this morning swore out a until morning, when Mrs. Kischler with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: 1st, The indisputable evidence that it is harmless; 2nd, That it not only allays stomach pains and quiets the nerves, but assimilates the food; 3rd, It is an agreeable and perfect substitute for castor oil. It is absolutely safe. It does not contain any opium, morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a medical journal to say. Our duty, however, is to expose danger and secord the means of advancing health. The day for poisoning innosent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system-not by stupefying it-and our readers are entitled to the information. Hall's Journal of Health. guarantees genuine
